Chapman Public Schools

Title Notifications

Dear Parent of Guardian,

Our school receives federal funds for Title 1, Part A programs. Throughout the school year, we provide important information about your child's education and progress. In addition, you have the right to request information about the professional qualifications of the classroom staff working with your child.

Professional qualifications include:

- Whether or not the teacher has met Kansas licensing criteria for the grade levels and subject areas being taught;
- The baccalaureate degree and any other graduate certification or degree and the field of discipline of both;
- If services are provided by paraprofessionals, the qualifications;
- If the teacher is teaching under an emergency or professional waiver.

In addition, if a situation should arise that your child has been taught for four or more consecutive weeks by a teacher that is not highly qualified, you will be notified by the school of this information.

As a reminder, you may access district and state report cards on the main page of our district website. Our district strives to provide your child with the highest quality of education and we are proud of the academic achievements of our students. Your child's state assessment scores are shared with you once they become available from the state, but you may request that information at any time.

If you would like to request information, please contact your child's principal.

Thank you,

Stacy Smiley
